

Public Report Committee Minutes July 18, 2007

Tom Oteri: Illinois does not do public report filings online. ARELLO is working on an online Timeshare filing process, but is not willing to share their program.

Cindy Ferrin: The Department now has the capability of paying via credit card, but you have to physically go down to the Department. CD writers are in, but just need to be installed.

Cindy announced the date and time of the Commissioner's Meeting and invited all committee members to attend.

Sherrie Mack: Handed out samples of the re-written questionnaire and application. Invited everyone to review the handouts and email her with any revisions or new suggestions.

Cindy Ferrin: The Chairs met with the Commissioner and he is very excited about the suggestions being made.

I have prepared worksheets for each of the sub-workgroups to help you finalize your report to Angela and I to submit to the Commissioner.

Cindy gave instructions as to how to proceed with the worksheet and the kind of information format that she and Angela are wanting to submit to the Commissioner.

She announced that the Commissioner is working towards making subdivision education a priority for realtors.

Detailed overview of some of the changes and the procedures it would take to get our goals met through the Commissioner.

We look forward to being able to make the process of submitting public report filings and obtaining approvals much easier.

At this time the group broke into the 3 sub workgroups to discuss final recommendations.

Meeting was adjourned at 10:00.
